Shivamogga, Karnataka

PROFESSIONAL SUMMARY

Motivated Full Stack Java and AI Developer with a solid foundation in Java and Python, and intermediate proficiency in Spring Boot and RESTful APIs. Skilled in developing scalable web applications with clean architecture, efficient database integration, and AI-driven features. Proficient in frontend technologies including HTML, CSS, and JavaScript, with a passion for building innovative, data-driven solutions and delivering impactful real-world projects.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering)	2022 - 2026
SDM Institute of Technology	CGPA 8.3/10
Pre University Education	2020 - 2022
Govt PU College Amrutha	Percentage – 81%
Class 10 (S.S.L.C.)	2019 - 2020
Govt Junior College Ripponpet	Percentage – 76%

SKILLS

- **Programming Languages:** Python, Java.
- **Full-Stack Development:** ReactJS, JavaScript, HTML5, CSS3, SQL, PostgreSQL, Spring Boot, UI/UX.
- **Tools & Platforms:** GitHub, Chrome DevTools, VS Code, PyCharm, Postman, Figma, Vercel, GCP.
- **Technical Skills:** Debugging, Code reviews, Git workflows, Problem Solving.

INTERNSHIP/TRAINING

JSpiders, Rajajinagar — Java Full Stack Intern	Jan 2024 – May 2024
• Underwent intensive training on Java Enterprise Edition, multi-tier architectures, and object-oriented practices. • Developed database-driven web applications leveraging core Java libraries, relational databases, and MVC design principles.	
Elevate Labs (Skill India, MSME Certified) — Java Developer Intern	Sep 2025 – Nov 2025
• Successfully completed a Java Developer Internship certified under Skill India & Ministry of MSME. • Worked on real-world projects, demonstrating strong Java development skills and analytical problem-solving ability.	

PROJECTS

Elite CineTicketing Booking App	May 2024
• Developed a full-stack movie reservation system utilizing a Java backend to process secure transactions and dynamic seat maps. • Implemented RESTful web services paired with database persistence to handle parallel seat allocations and schedules cleanly. • Tech Stack: Java, Spring Boot, SQL, React.js, JavaScript, HTML5, CSS3, REST APIs.	
AI-Based Home Surveillance System	Dec 2025
• Designed an AI-powered home security system capable of real-time motion detection and facial recognition using computer vision. • Tech Stack: Python, OpenCV, TensorFlow, Flask, Firebase, IP Camera.	
Plant Disease Prediction	Feb 2024
• A Plant Disease Prediction system that uses machine learning to detect diseases from leaf images via a Streamlit interface. • Tech Stack: Python, Flask, TensorFlow, Keras.	
Hospital Management System	Dec 2023
• Developed a menu-driven Java console application using Core Java, OOP concepts, and Collections to manage appointments. • Tech Stack: Java, Object Oriented Programming.	

CERTIFICATIONS

- **DSA using Java** – Infosys Springboard (Arrays, recursion, sorting, linked lists), Jul 2024.
- **Java** – Udemy, Sara Academy, Sep 2025.
- **Database and SQL** – Infosys Springboard, Jun 2024.
- **Full-Stack Web Development Using React Js** – Codelab Systems, Apr 2024.
- **TCS iON Career Edge - Young Professional** – Tata Consultancy Services, May 2024.
- **Learn Git Version Control: Git Essentials for Developers** – Udemy, Nov 2025.
